[^] Terms & conditions apply.

Start now with a regular savings plan (RSP)

Benefits of RSP

- Allows you to make full use of the power of compounding. Compounding is the ability of an asset to generate earnings, which is then reinvested in order to generate its own earnings. In layman's terms, compounding refers to generating earnings from previous earnings.
- The longer you let compounding work, the larger the amount you will have in the end. Start now by taking the first step to spend less than what you earn and invest the rest through a regular savings plan.
- This plan makes full use of the dollar cost averaging (DCA) investment strategy. DCA means investing an equal amount of money on a regular basis such as monthly, quarterly or half-yearly.
- By practicing a disciplined regular investment contribution, an investor is able to average out the cost of investment through buying more units when the price is low and fewer when the price is high.

Manulife PRS Series

Manulife PRS NESTEGG Series: Core funds

	Manulife PRS -Growth Fund	Manulife PRS -Moderate Fund	Manulife PRS -Conservative Fund
Fund category	Core (Growth)	Core (Moderate)	Core (Conservative)
